AUDIO VISUAL TECHNICIAN | LIVE SOUND | EVENT PRODUCTION

Available for full-time work starting in late Feb 2026 | Open to relocation

PROFESSIONAL SUMMARY

Audio visual and live-event technician with 3+ years of progressive experience supporting live sound, stage lighting, presentation systems, and event operations. Leads crews of up to 7, supports indoor audiences up to 200 and outdoor audiences up to 300, and resolves signal-flow and equipment issues during live events. Dante Level 1 and Crestron certified, with dual B.S. degrees expected in December 2026.

CORE TECHNICAL SKILLS

Audio Consoles: Behringer X32 and X AIR; Midas M32; Allen & Heath SQ-5, SQ-6, and GLD
Live Audio: FOH and monitor support, gain staging, microphones, patching, signal flow, troubleshooting
Lighting and Stage: ETC Element and Full Boar 4 cue operation, stage lighting, setup and strike, stage safety
AV and Software: Dante routing, presentation and playback systems, Pro Tools, Logic Pro, GitHub

PROFESSIONAL EXPERIENCE

Audio Visual Director | St. Luke's Lutheran Church | New Richmond, WI — Jun 2026 - Present

- Direct audio, video, and presentation delivery for at least one worship service or special event each week, from pre-event system checks through live operation.
- Configure and operate microphones, playback, and presentation sources for services, weddings, and funerals while coordinating technical cues with event participants.
- Diagnose audio, source, and signal issues in real time to preserve event continuity and clear communication.

University of Wisconsin - River Falls | River Falls, WI

Lead Production Technician — Jan 2024 - Present

- Lead student production crews through setup, show operation, and strike for campus events, performances, lectures, and stage productions.
- Operate and troubleshoot digital audio consoles, microphones, Dante workflows, signal routing, and stage lighting under live-event time pressure.
- Support productions serving audiences of up to 400 indoors and 300 outdoors while translating organizer and performer requirements into reliable setups and cues.

Production Staff — Jan 2023 - Dec 2023

- Supported audio, lighting, staging, cable runs, microphone placement, equipment checks, and routine maintenance; progressed to Lead Production Technician in Jan 2024.

Active Duty Soldier | Republic of Korea Army | South Korea — Aug 2020 - Feb 2022

- Completed 18 months of mandatory service in a structured, high-pressure team environment requiring discipline, accountability, and adaptability.
