Audio Systems: Digital Audio Consoles, Dante Routing, Cable Management, System Setup, Troubleshooting

Lighting & Stage: Stage Lighting, Full Boar/Hog 4 Cue Operation, Event Setup/Strike, Stage Safety

Software & Technical: Pro Tools, Logic Pro, GitHub, Microsoft Office, Google Workspace

EXPERIENCE

Audio Visual Director | St. Luke's Lutheran Church

Jun 2026 - Present

- Direct weekly A/V operations for worship services and special events, coordinating audio, video, and presentation systems.
- Prepare and operate microphones, playback/presentation sources, and system checks for services, weddings, and funerals.
- Provide real-time technical support and troubleshooting to maintain clear audio, smooth cues, and reliable event flow.

Lead Production Technician | University of Wisconsin - River Falls

Jan 2024 - Present

- Lead student production crews through setup, operation, and strike for campus events, performances, lectures, and productions.
- Operate and troubleshoot digital audio consoles, microphones, signal routing, Dante workflows, and stage lighting systems.
- Coordinate with event organizers, performers, and staff to translate technical requirements into smooth live-event execution.
- Resolve audio, lighting, cabling, and signal-flow issues under live-event pressure while maintaining safe backstage workflows.

Production Staff | University of Wisconsin - River Falls

Jan 2023 - Dec 2023

- Supported audio, lighting, staging, and equipment setup for university events, performances, and campus productions.
- Assisted with microphone placement, cable runs, signal routing, equipment checks, and routine maintenance.
- Maintained organized work areas during setup and strike while supporting production leads and event staff.

Active Duty Soldier | Republic of Korea Army

Aug 2020 - Feb 2022

- Completed 18 months of mandatory military service in a structured, high-pressure team environment.
- Developed discipline, adaptability, accountability, and team-based leadership through daily operations and training.

TECHNICAL PROJECT

Voice Cleanup VST3 Plug-in | C++/JUCE, REAPER

Spring 2026

- Built an audio plug-in prototype with gain staging, dry/wet blend, output gain, always-on limiter, and stereo output metering.
- Tested processing behavior in REAPER and documented milestone-based development, troubleshooting, and before/after demos.
